

CIVIL RIGHTS???

This Black child was aborted at five months of development on 11 May 1987, at the Michigan Avenue Medical Center, 30 South Michigan Avenue, Chicago, Illinois, by the "D & E" (dilation and evacuation) method. By this "procedure" the abortionist used large forceps to crush the baby inside the mother's uterus and remove it in pieces.

All human rights stem from the basic right to life. What happened to this American child's rights? Can peace and justice truly exist under such conditions? Prolifers buried this child on 14 May 1987.
