Good Morning

I see where you are going. Still, run the story of an employee of Wellford City; things you should know that you did not ask: 1. She does not work for the police department. She works in the front office for the city clerk. 2. Have you contacted her to see if she will tell her story? 3 I never emphasized the possibility of slander, libel, or "deformation" lawsuits." I made a statement that was expressed to me by her Lawyer. There is more to the story you have in the folder in your picture; you need to get a copy of the court order handed down in her family court case in November. It talks about a lot of the issues you are going publish as being unfounded and not actual. Last thing, the drug test you're going to publish was not found to be accurate. Ms. Tyson passed a hair test the same day. I follow your stories, and they are always on point. All I ask is you report the whole story. Thanks

Chief of Police

David Green
