None Filed.

Personal Effects

None Filed.

Narrative

Per interviews with Detective Sououd before death: Mr. Skinner, who became a quadriplegic from an accident in his early 20's, would go to his neighborhood pool early most mornings. This morning he appears to have gotten too close to the pool edge causing the wheel to slip and he fell into the pool. A short time later several people arrived at the pool, discovered him and called EMS. He was pulled from the pool, revived and transported to GSRMC where he was pronounced dead several hours later. Security cameras were in the pool area which were reviewed. An examination of his body revealed no trauma. A review of medical records was completed. Tamara Willard, Chief Deputy Coroner
